PROFILE

Highly skilled and innovative architectural designer with a passion for creating exceptional spaces that merge functionality, aesthetics, and sustainability. With a solid background in architectural design and a keen eye for detail, I am committed to delivering cutting-edge solutions that exceed client expectations. My expertise lies in conceptualizing and transforming ideas into visually striking and practical designs. I strive to stay at the forefront of architectural innovation. Seeking opportunities to contribute my skills and expertise to further enhance and redefine architectural landscapes.

WORK EXPERIENCE

Lead Architectural Designer / Graphic Designer

Nunya Studios / 2021 - Present

As an Architectural Visualizer at a Nunya Studios, I create stunning 3D renderings and animations that bring architectural designs to life, collaborating closely with architects and ensuring accuracy and timely delivery.

- Proficient in using industry-standard software to create accurate and realistic 3D models of architectural designs
- Skilled in applying textures, materials, lighting, and rendering techniques to achieve high-quality visualizations
- Experienced in translating 2D architectural plans and sketches into compelling and immersive 3D renderings and animations
- Meticulous in capturing intricate architectural details and elements
- Effective at collaborating with architects, interior designers, and project teams to understand design requirements and provide visual solutions that align with project specifications
- Skilled at managing multiple projects simultaneously, prioritizing tasks, and meeting tight deadlines without compromising on quality
- Committed to understanding client needs

Trade Plate Driver / Vehicle Inspector

BCA Logistics / 2019 - 2021

Working as a self-employed individual, organising appointments to evaluate a customers end of lease/finance vehicles.

- Dealing with clients daily to ensure the highest service of customer care is given
- Organising directly with the client to suit his/her agenda
- Conducting detailed inspections to assess damage
- Providing the customer with a final evaluation of damage including the price of which will be charged by the leasing company
- Planning the order of jobs to maximise efficiency and time management
- Collecting the vehicle and delivering to auction sites while closely sticking to my days' time management plan.

EXPERIENCE CONTINUED

Key Holder / Team Leader

Argos - Night Team / 2014 - 2019

During my time at Argos, I gained an understanding of how the business operates. My main responsibility was to ensure that deliveries were pulled in on time while adhering to the health and safety regulations. Other major roles which came with this position were learning the company's system called AURA, holding keys on night shifts, correctly voicing away items to the matching shelf identification, security checks and resolving discrepancies.

- Developed strong skills in managing inventory and stock levels efficiently. This includes accurately receiving and checking deliveries, organizing stock shelves, conducting regular stock audits
- Gained experience in leading and motivating a team of night stock assistants. This involved assigning tasks, providing guidance and training, and monitoring performance to ensure timely and accurate completion of stocking duties
- Acquired excellent time management skills by efficiently prioritizing tasks and ensuring that nightly stocking activities were completed within designated time frames

Sales Assistant

Zenith / 2013 - 2014

At Zenith I was able to apply my sales skills in a professional and collected manor. This role involved building up a base of clients who were interested in home improvement products. I expressed the ability to build rapport with customers which in turn allowed me to gain a clearer understanding of the products they were interested in, and how they would like them to be applied. While working here I both aimed to keep the customer happy, while at the same time maximizing company profits.

- Developed strong communication skills through interactions with customers over the phone. Learned to effectively articulate product or service features, benefits, and pricing to potential clients
- Gained experience in providing exceptional customer service by actively listening to customer inquiries, addressing concerns, and resolving issues promptly and professionally
- Developed the ability to handle challenging situations, diffuse tense interactions, and find appropriate solutions to ensure customer satisfaction

Architects - Work Experience

Duncan Clarke & Becketts / 2011 - 2011

Produced effective designs for clients and solving problems in a short space of time, I improved my design skills while working with my team mates and gained a clear understanding of the processes which are involved within the design process

- Gained experience in collaborating with architects, engineers, and contractors to ensure design intent is effectively communicated and implemented throughout the construction process
- Developed proficiency in architectural drafting and documentation, using industry-standard software to create accurate and detailed architectural drawings, plans, and construction documents
